

ELIASON® ECONOSPAN® INSULATED CURTAINS

The Perfect Solution for Temperature Control

ECONOSPAN® INSULATED CURTAIN

The Eliason EconoSpan Insulated Curtain Wall is the ideal solution for refrigerated areas, food processing facilities, walk-in coolers and freezers, distribution centers or any other area that requires a barrier for temperature control. The EconoSpan Insulated Curtain allows you to maximize your available space and provides easy installation, retractibility and mobility not available in permanent wall fixtures and are about 1/3 the cost. EconoSpan Insulated Curtains are made with durability in mind, constructed of reinforced flame retardant vinyl* and mildew resistant thread.

ELIASON®

EconoSpan Insulated Curtain

product features
& specifications

Insulation at It's Best.

- The no-fuss Insulated Curtain stays up as long as you like, but can easily be moved to different areas, giving you the versatility needed to meet your changing needs.
- EconoSpan Insulated Curtains are constructed with an outer surface of 18 oz. vinyl coated polyester fabric material and an inner core of single or double ply double bubble insulation for superior insulation. Each wall is made of 54" wide panels attached together with full-height Velcro.
- EconoSpan Insulated Curtain material meets flame retardant code NFPA701 and California Fire Marshal Standard*.
- With our optional track system, the Insulated Curtain can retract or expand within seconds, giving you the flexibility to quickly open or close off the area as needed.
- The EconoSpan Insulated Curtain can be installed in a fraction of the time it would take to create a framed wall, saving you time and money!
- The top of the curtain has a reinforced hem sewn with mildew resistant thread and stainless steel grommets available in 12", 18" or 24" increments.

Standard Track
