

ELIASON® EHH-3

Stainless Steel Traffic Doors

UNIQUE, CONTEMPORARY APPEARANCE

This very attractive traffic door provides the best of all worlds in a stainless steel clad door for restaurant and food service applications. It is constructed of 7-ply exterior grade plywood and clad full height on both sides with 20 gauge stainless steel. Standard scratch-resistant 9" x 14" acrylic vision panels are installed flush to the surface of the door panel to provide a very sleek appearance. These doors operate on our unique patented "Hidden Hinge" system. The hinge is mounted on the back side of the door panel, hidden from customer view and operates on the same design principle as our Easy Swing® Hinge - pioneered by Eliason more than thirty years ago. Custom size windows, impact plates, easy spring bumpers and other options are available.

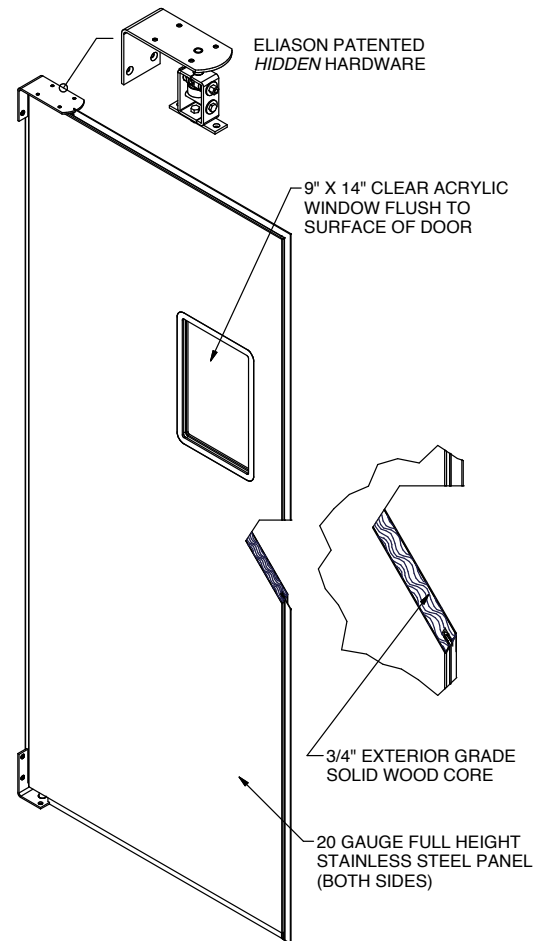

ELIASON®

Eliason® EHH-3 Stainless Steel Doors

product features
& specifications

Unique, contemporary appearance

- Eliason EHH-3 doors feature our exclusive patented “Hidden Hinge” system, providing a unique, contemporary appearance.
- EHH-3 doors are built tough and feature full height 20 gauge stainless steel exteriors with scratch-resistant flush mounted acrylic vision panels.
- Eliason EHH-3 doors feature our Hidden Hinge System, which is based on our Easy Swing® hinge – the easiest to install, smoothest operating, most reliable double acting door hinge available.
- The sleek appearance makes the EHH-3 the perfect choice for restaurants, banquet halls, country clubs, and hotels.
