

THE ELIASON® SR-8100

Sleek, Strong and Stainless.  
The Perfect choice for Restaurants.

## SR-8100 STAINLESS STEEL WOOD CORE DOOR

The Eliason SR-8100 has a beautiful aesthetic appeal that is perfect for a wide variety of applications including restaurants, institutions and commercial facilities. This durable door is constructed with a 3/4" sustainable, moisture resistant, composite wood core and clad with full height stainless steel face sheets. The scratch-resistant acrylic vision panels are 9" x 14" set in black rubber molding. The SR-8100 operates on our extra heavy duty V-Cam hinging system, designed to give you years of trouble-free service. The SR-8100 is sure to be the perfect addition to your establishment and will keep your customers coming back for more!

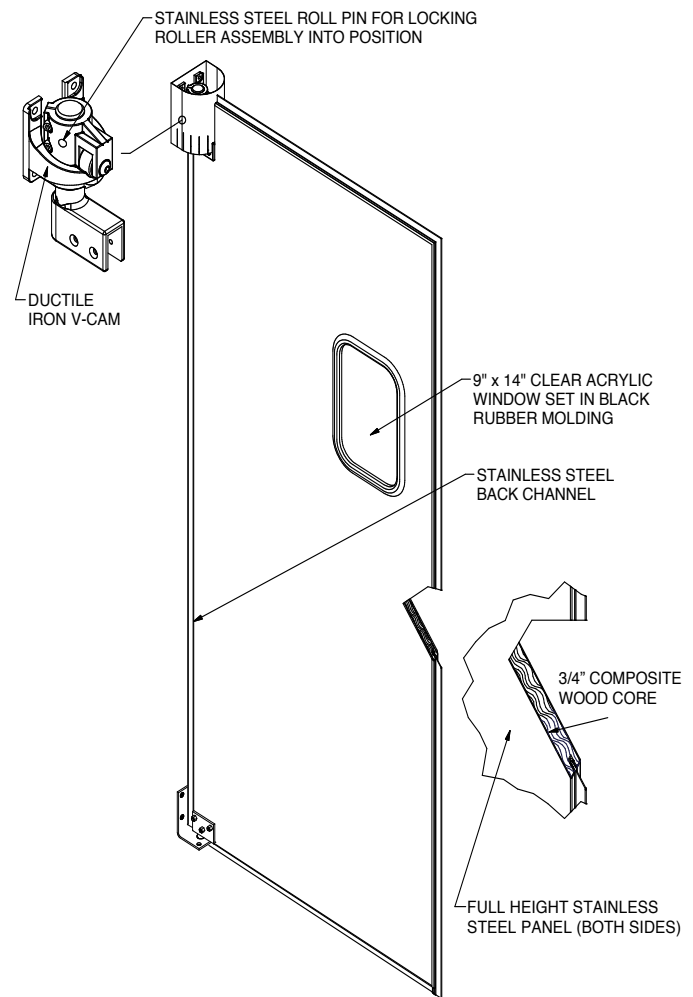

ELIASON®

# SR-8100 Wood Core Door

product features  
& specifications

## Durable Panel, Sleek Finish.

- SR-8100 Stainless Steel Wood Core door panels are constructed with 3/4" thick moisture resistant, composite wood core, stainless steel face sheets and stainless steel edge capping. Specify model SR-8100FV for fully gasketed doors.
- The SR-8100 operates on the low rise V-Cam Gravity Hinging System complete with bottom hinge pin assembly.
- Doors are custom built to your own specific requirements and can be ordered up to 48" x 96" for singles and pairs up to 96" x 96".
- Standard vision panels are 9" x 14" durable, clear acrylic set in black rubber molding and centered at 60" from the finish floor. Other configurations and sizes are available upon request.

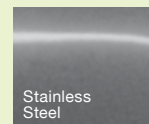

## Specifications

**DOOR BODY:** Constructed of 3/4" thick composite wood core and clad full height on both sides with full height stainless steel.

**WINDOWS:** Scratch resistant 9" x 14" acrylic vision panels are set in black rubber molding and centered at 60" from the finish floor. Other sizes available upon request.

**HINGES:** SR-8100 doors are supplied with a ductile iron V-Cam hinging system with a stainless steel roll pin for locking the roller assembly into place.
